

EXTRANET USER MANAGER

OPTIMIZE YOUR CORPORATE EXTRANET

WHO WE ARE

Extranet User Manager is a brand of software products owned by Envision IT Inc., an IT services company that has been a leader in the Microsoft SharePoint space for over 10 years and is an established Microsoft Gold Competency Partner. Our experienced and dedicated team is driven towards creating advanced products that demonstrate best-in-class capabilities with Microsoft technologies.

WHAT WE DO

Our product suite empowers organizations to collaborate and share externally in a simple, secure, and effective way. Our goal is to make traditionally IT-heavy tasks low-fuss and accessible by all. Our products' customizability ensures that your organization will get the most out of our products based on your unique needs.

SIMPLIFIED, DELEGATED USER MANAGEMENT

Provide external users with access to areas within your Microsoft 365 through the use of our powerful EUM Admin tool and highly customizable, user-friendly Portal.

INTUITIVE CMS AND DOCUMENT REPOSITORIES

Enable individuals of all levels of experience to publish out pages and manage files that are shared externally.

INTERACTIVE REPORTING ON DEMAND

Our products utilize Power BI Embedded and Azure AD to provide valuable insights about your external-facing EUM Portal.

OUR PRODUCT SUITE

EXTRANET PORTAL

Extranet Portal is the platform that our suite integrates into. It is a feature rich, fully customized external-facing portal that showcases your brand while providing a seamless end user and administrative experience.

USER MANAGER

An innovative tool that minimizes reliance on IT involvement in external user management by leveraging Azure AD B2B, which allows you to delegate user administration to both internal and external stakeholders.

DOCUMENTS

A simple and scalable way to externally share documents within Microsoft 365, while maintaining your organization's branding.

PUBLISHER

User-friendly and flexible content management system that allows you to publish content to a broad external audience.

DATA PORTAL

Instantly generate rich data reports using Power BI embedded, without purchasing additional licenses for your users.
